

Call for Attendance
MEI-Center Summer School 2016 in Osaka University

Overview

The School is designed to provide 5-days “full immersion” in the practical learning for Tissue Engineering and Medical Device Development in Osaka University, and is mainly addressed to graduate students in any department who are interested in it.

The course lasts 5days and is articulated in four parts:

- Lectures & Discussions from the technical perspective
- Hospital visit for clinical needs finding
- International Symposium
- Project-based Learning or Lab tour

For further information, please have a look at the flyer.
